

# Bridgewater Monument

The centerpiece of our new Municipal  
Complex made possible by the  
families, individuals and businesses  
of Bridgewater Township.

# Monument description

The entrance to the new Municipal complex will be framed by three large flagpoles in the center landscaped area with the Monument in the background.

The Monument itself is a 45' long by 6' high semi-circular wall where a laser engraved granite mural will depict the history of the Township. The circular walkway of precast concrete pavers will surround a planted area which contains the plaque recognizing monument sponsors. Three pathways will lead to the focus area where a seat wall will allow individuals to relax and appreciate the monument, the centerpiece of the Municipal Complex. The total cost of the project is estimated to be \$100,000. Your tax deductible donation to the Bridgewater Monument Fund will allow us to complete construction of this preservation of Bridgewater's history.

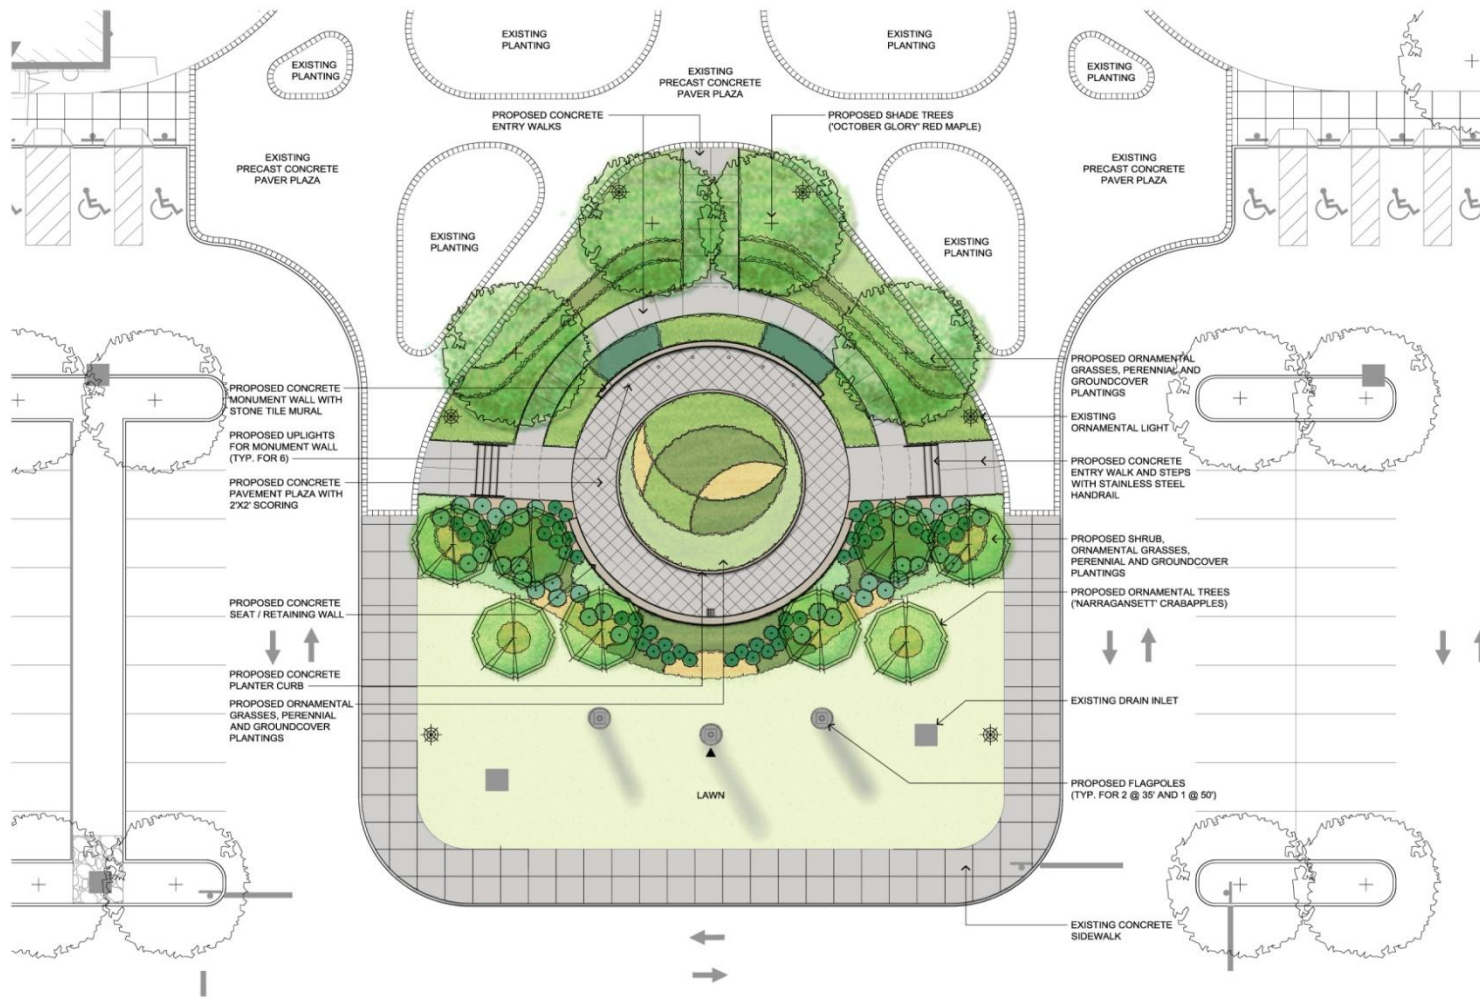

## Location of Monument

The new Municipal Building is the tan area marked “A, B, C, D”.

The location of the monument will be in area “L”.
